DevOps Engineer

Wanna be part of a growing and dynamic software company? Then, join us at Sellercloud - a USA based software company that provides inventory and order management solutions for internet retailers, combining a set of technologies around Innovation, Intelligence and Integration.

We are looking for a DevOps Engineer, who will drive our automation and infrastructure projects. You will have a chance to use your software engineering skills to automate or eliminate operational tasks.

What the role looks like:

- Automate configuration management and deployment of applications using the best practices of CI/CD
- Create Jenkins pipelines, and monitor and improve existing ones
- Implement integrations requested by customers
- Refactor login to improve code quality
- Build and implement creative solutions to operational problems, including optimizing existing systems, building infrastructure
- Support and enhance production-like environment to ensure integrated products have reliability, observability and maintainability required for customer deployment
- Define and set development, test, release, update, and support processes for DevOps operation
- Keep up to date with best security practices and perform vulnerability assessment

Requirements

- Bachelor's degree in Computer science or closely related field
- Experience in software development for at least 2 years
- Excellent English language skills (both written and verbal)
- Infrastructure management and DevOps experience
- Experience with CI/CD platforms such as Jenkins, GitHub
- Experience with .NET tools
- Basic experience with scripting, such as PowerShell and Bash

- Knowledge in JSON, YAML, XML, REST
- Working knowledge of SQL
- Desire to engage in continuous learning to ensure knowledge of latest DevOps technologies
- Someone who enjoys working collaboratively

What we are considering as an advantage:

- Basic understanding of Octopus Deploy
- Knowledge in Docker and Kubernetes
- Software development background (C# / Java / Python) would be highly appreciated

We got you covered with:

- 25 days of paid leave
- Mentoring, training, and career development opportunities
- Flexi working time and hybrid model of work
- Parental bonus
- Referral bonus
- Participation in training sessions (internal & external)
- Be part of a close-knit, friendly, and supportive team
- Annual medical checks
- Gift cards
- Additional health care lux package
- Transportation benefit
- Gym Membership
- Food vouchers
- Prime office location
- Refreshing drinks and snacks at the office
